## PROFESSIONAL SUMMARY

---

MCA graduate specializing in full-stack web development and machine learning, with practical experience in modern software development. Skilled in React.js, FastAPI, Node.js, Python, and MongoDB, with a strong foundation in software engineering principles. Committed to building efficient, scalable, and reliable software solutions.

## TECHNICAL SKILLS

---

**Languages:** Python, JavaScript, C, SQL

**Frontend:** React.js, HTML5, CSS3

**Backend:** FastAPI, Node.js, Express.js, Flask

**Databases:** MongoDB, MySQL

**Machine Learning:** Scikit-learn, XGBoost, Random Forest, ARIMA

**Tools:** Git, GitHub, Postman, VS Code

## INTERNSHIP EXPERIENCE

---

### Software Developer Intern

2026

*Unique World Robotics*

- Contributed to the development and testing of web-based applications using modern software development practices.
- Assisted in implementing frontend and backend functionalities while ensuring application reliability.
- Collaborated with the development team to debug issues, improve performance, and integrate new functionalities.

## PROJECTS

---

### CIVIC-DSS — Spatio-Temporal Civic Risk Prediction System

*React.js, FastAPI, MongoDB Atlas, XGBoost, ARIMA, Leaflet*

- Developed a full-stack civic risk management platform for monitoring, analyzing, and visualizing civic complaints using geospatial data.
- Implemented machine learning models for complaint forecasting, hotspot detection, and risk prediction with interactive dashboards and automated notifications.

### Equip Guard — Predictive Maintenance of Industrial Equipment

*Python, Flask, React.js, MongoDB, Scikit-learn*

- Developed a predictive maintenance system to estimate equipment failure using machine learning and historical sensor data.
- Built data preprocessing pipelines, trained predictive models, and designed an interactive dashboard for equipment health monitoring.

## Cinemaverse — Movie Database Web Application

*HTML5, CSS3, JavaScript, YouTube API*

- Developed a responsive movie database application with advanced search, filtering, and trailer preview functionality.
- Integrated the YouTube API to deliver movie trailers and designed an intuitive interface for seamless content browsing.

## EDUCATION

---

### Master of Computer Applications

2024 – 2026

Federal Institute of Science and Technology (FISAT)

CGPA: **9.07**

### Bachelor of Science in Physics

2021 – 2024

Nirmalagiri College

CGPA: **9.02**

## CERTIFICATIONS

---

- DevOps Fundamentals — IBM Developer Skills Network
- AWS Academy Cloud Foundations
- Database Management Systems — NPTEL
- Artificial Intelligence & Machine Learning Internship — YBI Foundation
- MERN Stack Development Bootcamp

## ACHIEVEMENTS

---

- Third Position — MCA Batch (2024–2026), Federal Institute of Science and Technology (FISAT)
- TCS CodeVita Season 12 — Qualified for Round 2
- B.Sc. Physics — First Class with Distinction

## LANGUAGES
